HEART GOI D&SOUL SILVER

VS ARCEUS IV

Now, it's time to enshrine Arceus
on the Mystri Stage!!

No!!
You bastard!! What are you trying to make it do?!

We will not let you pass
Archer is in the middle of his cere-mony
You will have to defeat us to past us

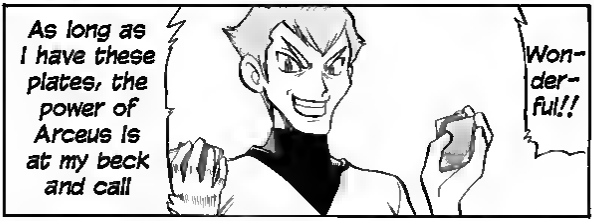
If you can actually defeat us, that is
He-he-he
Ho-hoh..!

Look
Resistance is futile, Arceus

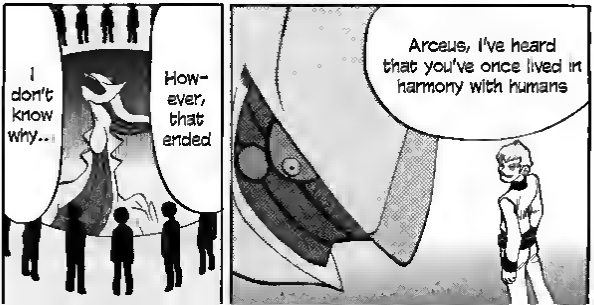
These are the 16 plates for which you have been searching for so long
I have all of them
In my hand
Hehe, look at your eyes fill with hatred
You must be desperate to get back your power - your "plates"
As long as I have the plates,
you will do as I say
ギリ
Now, show me your legendary power!!
Type shift!!
What's that blue light?!
Look!!

Arceus' color has...!
His body is now deep azure...
"Splash Plate"... Water type
Uwah!!!

"Zap Plate"
Now for this!!
Wa-ha-ha-ha-ha!!
Yes!! Let out all of your anger!!
"Mind Plate" for Psychic type!!
"Meadow Plate" for Grass type!!
"Stone Plate" for Rock type!!



As long as I have these plates, the power of Arceus is at my beck and call
Wonderful!!



Arceus, I've heard that you've once lived in harmony with humans
However, that ended
I don't know why..

they extracted the source of your type-changing powers from your body in the form of these plates
but in order to harness the great power that lied within you,

In order to take all of your powers!!

After being betrayed by the humans and losing your powers, your only recourse may have been to sleep forever

That's why we've summoned you yet again
But that's a waste it's really a waste

why did you just give it to them?!
Then ...

My deductions were correct!
...I knew it!

Gold!! Why did you tell him to do it?!
Ah~
Dun-no
I just felt that using
cheap tactics won't get us anywhere
Especially when Arceus is being taken hostage!!
...!!
Hohoho, what a wise decision
These things should be left up to those who can use them efficiently
Exactly

It's only right for those who want Arceus' power to hold the 16 plates!!
Insect Plate!! Stone Plate!! Spooky Plate!! Draco Plate!! Dread Plate!! Iron Plate!!
Flame Plate!! Splash Plate!! Meadow Plate!! Zap Plate!! Icicle Plate!! Fist Plate!! Toxic Plate!! Earth Plate!! Sky Plate!! Mind Plate!!
That in turn made Arceus open up his heart
Although it was a short fight, you reached out to Arceus' heart
If it weren't for your naive attempt at capturing Arceus
We couldn't have got in here
It's only possible to enter these Sinjoh Ruins by walking alongside Arceus
It's said that
You helped us too
?!
Little girl!

The same goes for you, who gathered all of the plates in a few days
Even though it was only in your ball for a moment, the closest it ever felt like that was when it was born
but ...
This world sure is filled with amazing boys and girls,
to its final stage
Now, let's move the dream collaboration between the righteous boys and girls and the evil Team Rocket
We're quite thankful
everything you did for Arceus' sake helped our plan instead

Create!!
Ar-
ceus!!
Your
master
orders
you!!

It's just as you think it means
What is he saying?!
"Create"?!

It's not literally creating something out of nothing
In addition to "Alpha Pokemon", Arceus is also called the "Creation Pokemon"
What in the world is it creating...?!
"Create"...!
It's creating legends

...Le-gends
That's ...!
Wh-..What?!
In other words ...
The legend of anti-matter!!
The legend of space!!
The legend of time!!

Dialga !!
Palkia !!
Gira-tina!!
and

Right here!!
The three Pokemon that Arceus is said to have created!!
Boss Giovanni!!
Isn't that right?! Our great leader,
Who will dare to oppose Team Rocket, which now has the strongest army!!
As long as Arceus is under my will, Dialga, Palkia, and Giratina are as well!!
Arceus!! Let our voice ring all across the land!!

There's no other organization anywhere in the world that can compete with Team Rocket!!

If you're still living somewhere, please listen, Boss Giovanni
We've assembled the strongest team for your return!!

The strongest!!
So...!!
With Arceus, Dialga, Palkia, and Giratina in our possession, we're the strongest

Boss Giovanni!

Please...come back... to Team Rocket...!!
Please come back to us, Boss Giovanni!!

Yo, why are you spacing out? Did the Legendary Pokemon leave you speechless?
Or...
did you hear a name you know?
Like Boss Giovanni ...
You!...!!
Woah there
By chance, I heard something from an ex-commander who looks like this
Something that Archer, Ariana, and Proton don't know
You're
our boss' son, right?
